A great improvement is the new side walk our clever merchant, G. A. Walter, has made on his portion of Main Street.

Your correspondent visited the city of Waynesburg Saturday, the first time in a number of years. We were astonished at its growth.

County Attorney W. S. Burch attended magistrate's court here Saturday. The popular opinion is that we have in Squire Adams one of the cleverest, best magistrates in the county.

An unofficial report is current that when the new time card takes effect early in January, Nos. 9 and 10 will run through to Somerset, which will certainly be a great accommodation to the traveling public between Somerset and Junction City.

Eph D. Pennington, deputy county clerk, was here Saturday. C. F. Jones, of the Q. & C., was here Friday. Deputy Assessor Crutchfield was here Saturday. J. Ed Boland, of Burnside, was here Friday. Sells More of Chamberlain's Cough Remedy than of All Others Put Together.

Mr. Thos. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozens sold under guarantee I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by Stanford Drug Co.

The battle ship Virginia and the Old Dominion steamer Monroe were in collision in Hampton Roads, the Monroe ramming the battleship. The Virginia's after port guns and davits were damaged. The Monroe's prow was badly bent.

Croup.

A reliable medicine and one that should always be kept in the home for immediate use is Chamberlain's Cough Remedy. It will prevent the attack if given as soon as the child becomes hoarse, or even after the croupy cough appears. For sale by Stanford Drug Co.

J. C. Eskilson, treasurer of the Danish Brotherhood of America, is missing from Chicago, and his accounts are said to be short \$60,000. His wife says she will repay the shortage if she has to work all the remainder of her life to do it.

Cut this out and take it to the Stanford Drug Co. and get a free sample of Chamberlain's Stomach and Liver Tablets. For biliousness and constipation they are unequalled. They improve the appetite, strengthen the digestion and regulate the liver and bowels.

St. Mark's Roman Catholic church at Richmond was burned, causing a loss of about \$4,000, with \$3,000 insurance. The fire was caused by a defective flue. The church was built 40 years ago. All the contents were saved.

Rev. A. J. Pike, of Brodhead, was here yesterday returning from his appointment at Hayesville, Boyle county. He has just held a protracted meeting at Freedom, Garrard county, which resulted in seven confessions and baptisms. His handsome daughter, Miss Eliza Pike, accompanied the well-known preacher on his trip to Hayesville.

Politics was not allowed to enter into the deliberations of the synod of the Cumberland Presbyterian church in Hopkinsville, although a resolution was offered endorsing Gov. Beckham for his part in enforcing the Sunday closing laws. The resolution was amended before its passage, by the elimination of Gov. Beckham's name and the substitution of the words "such officials as have shown a disposition to enforce the laws."

Carelessness in sending money through the mails is commented upon in a bulletin issued by the Post-Office Department. One case is given where the dead-letter office received a letter from abroad which had been addressed to a missionary in Africa. His name was given, but no post-office address. The letter was opened by the dead-letter office and found to contain \$400.

New Oklahoma Town in Which Mr. W. R. Denham, late of Stanford, is Largely Interested.

FOUNTAIN CITY, OKLA., Oct. 30, 1906.—I thought I would have written the old reliable I. J. before this, but have been so busy since I came here that I have had but little time for writing, and now as I have promised a great many of my Lincoln county friends to give my opinion of this country after I had been here awhile, I will take this method of writing to them all at one and the same time through the "cheapest and best," (the I. J.) To those who do not read the I. J., I do not care to write.

Well, my opinion of this country has not changed one bit. I have been here two months and the more I see of the country the better I like it. The Comanche County Fair, lasting six days, was the most liberally patronized county fair I have ever attended. I am satisfied that in the two days I was there, not less than 8,000 people were present, and I never saw a finer display of farm and garden products in my life; corn, oats, alfalfa, beets, potatoes, (sweet and Irish) Mila maize, sorghum, Kaffir corn, and in fact everything raised on a farm. The hog, poultry and sheep show was simply immense and the races good, very liberal purses being offered. The purses for trots and paces each day were \$200 and \$500, and several of them.

You meet people here from almost every State in the Union, but there are more in this county from Kentucky, Tennessee, Illinois and Indiana than from any other States. Lawton, population 13,000, is five years old and is a world's wonder. It has five good banks, 10 churches, a \$50,000 court house and jail, fine opera house, city hall, one \$50,000 hotel and about 20 other hotels, to say nothing of the rooming houses and restaurants, and all of them crowded day and night.

The land here is a fine, rolling prairie—most of it good, with once in a while a sorry farm; good climate, warm days and cool nights. They had splendid seasons last year and this year a little too much rain. I bought my corn last week at 25c per bushel delivered in my crib; oats are selling at 25c, hay, 20c per bale. I have talked with a number of farmers here who raised 80 bushels of oats per acre and some who raised 70 bushels of corn, but that is considered an extra good crop of corn. Wheat in this county made from eight to 30 bushels, about 14 bushels being an average. Wheat is worth 50c here but it has been higher. First patent flour sells here from the stores at \$1.60 per cwt.

I bought last week and moved to it, 40 acres adjoining our proposed town—Fountain City. I have 1,200 fine growing fruit trees, 2,500 shade trees, etc. My place has a few acres of cotton which I am now having picked and which will make half a bale per acre. I have two acres of goober peas, etc. I bought this place with a five-room house for \$2,650. Have only had it a few days and have been offered \$3,600 for it; but as there are only 66 feet between my 40 acres and Fountain City township I would not take less than \$10,000 for it.

Well now, I will tell you about Fountain City. It is in the Wichita valley at the foot of Wichita Mountain, in plain view of Mt. Signal, four miles from Fort Sill and adjoining the maneuvering grounds of the government. These grounds are five miles wide, 30 miles long, seven miles from Lawton and three miles from the National Game Reserve, with a spring of the finest water I ever saw and a fine quarry of building stone in 500 yards. I believe we have farms around us good enough to raise all kinds of farm products, including cotton and fine fruits. I fully believe we are going to have a model town. I enclose you a prospectus and miniature map. We will have our lots all staked off and ready to sell in a few days and we have over 200 letters already from prospective buyers all over the United States. While I love old Kentucky and hope to end my days there, still I can honestly say that I believe within 10 years Oklahoma will be one of Kentucky's closest rivals. Now Walton, I don't expect you to publish all this, but pick out and publish what you please. With kindest regards for all my old Lincoln county friends, the I. J., its editor and staff, I remain yours very truly,

W. R. DENHAM.

Gov. Luke P. Blackburn, whose reputation as a physician and philanthropist is too well known to need further comment, once said "Concentrated Crab Orchard Water is the best aperient known to the medical profession and will cure more diseases than any one remedy I have ever used." In Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by Stanford Drug Co.
